Student Grievance Policy

Any student seeking to file a complaint or grievance should first contact the AMO School Academic Director in an attempt to reach an informal resolution of the issue.

The majority of complaints can typically be addressed at this initial, informal level, which serves as the first step in our grievance procedure. A written grievance should include, at a minimum, the student's name, the details and a written account of the complaint, the desired outcome, and any supporting documentation as specified in the grievance form. Upon receiving a written grievance, the School Academic Director will review the complaint, make contact with the student within ten business days to confirm receipt, clarify any details provided by the student, and request any additional information necessary for a comprehensive evaluation.
